Name: **Rohan Maharjan**

Date of birth: **01/08/1997**

Local Address: **700 University Avenue**

Home Address **Kathmandu, Nepal**

Cell Phone Number: **3185389201**

Warhawks Email: **maharjr@warhawks.ulm.edu**

College Cumulative GPA*: **3.9**

Classification: **Senior**

What size shirt do you wear? **Small**

What projects would you most like to work on with CAB and why? **There are many things I would like to work on with CAB, and a couple stands out firmly in my mind as projects I am passionate about. The first is the 'Week of Welcome' which I have had the opportunity to experience for the past 3 years now. I have always seen the faces of joy and excitement during this event as friends meet each other after a long break, and also new friendships are born. Many exciting events take place during this week which makes everyone feel that this university is awesome. I want to be part of an organization that makes all of this possible and contribute as much as I can to make the event successful. The second project I am passionate about is the Casino Night. I had the opportunity last semester to enjoy this event. A lot of my friends were there and we enjoyed it very much. Some of them won a bike, some headphones and so on. It was an exciting night. I want to get involved in CAB and help recreate those moments of excitement and joy and strive to make it even better next time. I look forward to the chance to bring my skills and ideas to CAB. I know it will be an asset as we work together to develop new ideas.**

What ideas and skills would you be able to bring to CAB? **I have always been an energetic worker. Throughout my history of campus involvement, this energy has shown itself in my upbeat attitude and ability to keep busy. Tasks have always been about more than a to-do list for me. I strive to take initiative to help on the events to ensure tasks get done. Of course my energy is led by my time management skills - so I work on top-priority events before searching for busywork. If I were to get accepted in CAB - this energy and everything that comes with it would lead to brainstorming innovation and efficiency. Furthermore, I can add to the diversity of CAB since I am an international student, and suggest events and projects that would attract not just domestic students but internationals as well. What was your favorite event and why? How would you improve it? **My favorite event was the Casino night because it gave me an opportunity to experience American Casino at the University. I played lots of board games that night and won few chips as well. It was an amazing event and I think everybody enjoyed it. However, if I have to list one thing that would have made that night even better, I would say we need to add more game tables or increase the event time. I noticed that lots of people didn't get chance to play any games because they were late and all the tables were occupied. So, if we can add more tables or increase the event time, nobody will have to return home without having enough fun.****

List Campus Involvement **1. Global Ambassador 2. Nepalese Student Association 3. Association for Computing Machinery 4. Math Resource Center 5. International Student Association**

List any comments or suggestions you have for future CAB events **I would suggest increasing the number of giveaways during CAB events so that students believe that they have chances of getting reward by attending the events. This can help increase the number of participants in the event and make it a success. Similarly, if we can set a convenient environment for the students, they are more likely to attend the events. For instance, a lot of events happen in Bayou Park. However, it is too hot outside, and many students are reluctant to go to the event. So, if we can somehow provide shade in the event area, it can help students to enjoy the event even more. In addition, the cabbies that are doing the shift will also have some good time.**
